HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below

NOTE:

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking or call privacy features.

NOTE:

Whenever troubleshooting a fax issue it is good practice to set the **Autosonic Reports** option to **Every Error** before attempting a test fax. This way even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products consult the product *User's Guide* for specific steps.

1. Send a one page blank and white test fax to **1-888-hpfaxme** (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the your manual that came with the product for proper setup and configuration.

NOTE:

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code

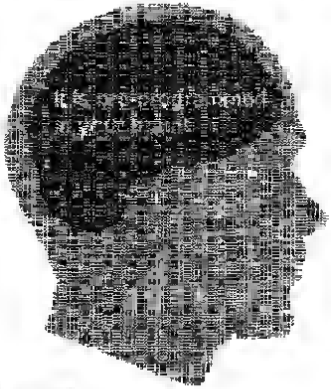
HOW SMART IS YOUR RIGHT FOOT?



Try out this,...

This is incredible!. You have to try this, it is absolutely true. I guess there are some things that we never cannot realize.

You have to try this stretch. It takes ten seconds.
I could not believe that!
A famous orthopedic surgeon
This will confuse your mind and you will loose trying over and over again to see if you can outsmart your self. But, you can't, it is physiological in your brain!

1. While sitting at your desk or even at your computer, lift your right foot off the floor and rotate counterclockwise.

2. Now, while doing this, draw the number 6 in the air with your right hand. Your foot will change direction!

I told you so! And there's nothing we can do about it! You and I don't know how it works. But before the day is done you are going to try it again. If you've not already done so.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

MagicJack offers a basic, inexpensive alternative to a traditional telephone land line, which can allow you to receive incoming calls from anywhere in the world. However, you may wonder if you can still use your old fax machine with MagicJack. While previous versions of MagicJack failed to support the connection of a fax machine, the current MagicJack Plus does support the connection.

Free Fax Software! www.efax.com
Receive and send faxes the No.1 online way - and it's as easy as email!

Step 1

Install your MagicJack. Plug it into an open wall or ready power outlet. Connect MagicJack to your router, such as Linksys. Connect one end of a length of telephone cord to the MagicJack USB connection. Plug the other end into a telephone. Power on your router, open your web browser and enter your MagicJack login to activate your account.

Step 2

Disconnect the telephone from your MagicJack and connect your fax machine in its place.

Step 3

Adjust the fax speed to the recommended setting for your machine. If you want to maintain a low cost, this will be the slowest fax speed your machine is capable of.

Step 4

Send a test fax to confirm your fax machine connection is properly set up for the MagicJack network.

Hershey's Best Brownies

Ingredients

- 1 cup (2 sticks) butter or margarine
- 2 cups sugar
- 2 teaspoons vanilla extract
- 4 eggs
- 3/4 cup HERSHEY'S Cocoa or HENSHEY'S SPECIAL DARK Cocoa
- 1 cup all-purpose flour
- 1/2 teaspoon baking powder
- 1/4 teaspoon salt
- 1 cup chopped nuts (optional)

Directions.

1. Heat oven to 350°F. Grease 13x9x2-inch baking pan.
2. Place butter in large microwave-safe bowl. Microwave at MEDIUM (50%) 2 to 2-1/2 minutes or until melted. Stir in sugar and vanilla. Add eggs, one at a time, beating well with spoon after each addition. Add cocoa; beat until well blended. Add flour, baking powder and salt; beat well. Stir in nuts, if desired. Pour batter into prepared pan.
3. Bake 30 to 35 minutes or until brownies begin to pull away from sides of pan. Cool completely in pan on wire rack. Frost, if desired. Cut into bars. Makes 24 to 36 brownies.

Before baking brownies, take about ½ C peanut butter and soften in microwave so it can be drizzled over brownie batter. Use a knife to swirl in batter. Bake, let cool. Use jet puff marshmallow crème as "icing". Melt chocolate chips to drizzle on marshmallow cream and swirl with knife. Put sprinkles on top

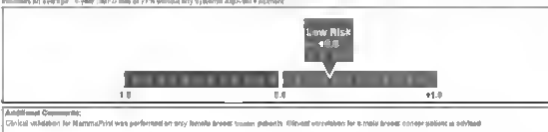
MammaPrint Result

Low Risk

[redacted] outcome of the MammaPrint 70 gene expression profile. The MammaPrint result is calculated from a commercial linker function [redacted] Risk of Distant Tumors with Indices > 0 is considered Low Risk, while a result of Indices < 0 is considered High risk. For a breast cancer patient, Low Risk results are on average 5-year distant metastasis-free survival (DMFS) rates (95% confidence) observed with treatment, while High Risk patients on average 5-year DMFS rate of 71% without any systemic adjuvant treatment.



Additional Comments:
Clinical validation for MammaPrint was performed on only female breast cancer patients. Risk-out stratification for a male breast cancer patient is advised.

Assay Description

[redacted] used to [redacted] A description of MammaPrint with fresh tissue for patients of all ages with invasive breast cancer whether tumor size [redacted] equal or less than 5 cm (T1-T2). Outside the U.S., Agendia Inc. has acquired additional clearance in compliance with [redacted] for fresh and formalin fixed paraffin-embedded (FFPE) breast cancer tissue for patients with up to 3 positive lymph [redacted] 3 breast cancer patients. The test is performed using a microarray-based gene expression profile that was independently [redacted] [redacted] An unbiased, supervised analysis of the entire human genome, 25,000 genes, followed by a leave-one-out cross-validation procedure, yielded the 70 most significant genes that distinguish Patients as High Risk vs. Low Risk of metastasis. Therefore this MammaPrint result provided [redacted] statistically significant, additive information to oh-patient vs. help them decide on treatment in early stage breast cancer patients.

Based on the analytical performance of MammaPrint, the precision of classifying a sample as High Risk or Low Risk is 98% for fresh and 97.3% for FFPE, and the repeatability of the microarrayed is 99% for fresh and 97.8% for FFPE. Furthermore, when a fresh sample's MammaPrint Index (MPI) falls within a pre-defined area, whether the classification will fall between -0.0073 and +0.0073, the classification accuracy is less than 90%.

RETURN SERVICE REQUESTED

Statement Enclosed

Many of the newer computing devices have wireless capabilities built in. If your computing device has wireless built in, simply enter the WPA2 KEY and ESSID values located on the bottom of the Wireless Gateway into the appropriate fields as directed by your laptop user guide.

Illustrative only. Values have been changed for privacy.

If your computing device does not have built in wireless capabilities, you can purchase an 802.11n, 802.11g or 802.11b wireless card. Once you have easily installed your 802.11n, 802.11g or 802.11b card, you will need to enter the WPA2 KEY and ESSID values located on the bottom of the Wireless Gateway into the appropriate fields as directed by your wireless adapter software.

Note: the WPA2 key or ESSID may be originally set as default by the network. The WPA2 key provides the security for your gateway. The ESSID is the name of your gateway's network.

You will be able to connect multiple wireless computing devices to the Internet at the same time.

If you require additional information, please see the user manual.

Zen Thinking

1. The journey of a thousand miles begins with a broken fan belt and a leaky tire.

2. Don't be irreplaceable. If you can't be replaced, you can't be promoted.

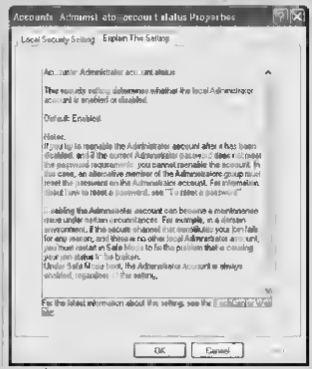
Functionality	Description
Descriptive Security Options User Interface	The Security Options dialog panel in Windows XP SP3 now has more descriptive text to explain settings and prevent incorrect settings configuration. Figure 1 shows an example of this new functionality.
Enhanced security for Administrator and Service policy entries	In System Center Essentials for Windows XP SP3, Administrator and Service entries will be present by default on any new instance of Policy. Additionally, the user interface for the *Impersonate Client After Authentication* user right will not be able to remove these settings.
Microsoft Kernel Mode Cryptographic Module	Microsoft Kernel Mode Cryptographic Module (fips.sys) is a FIPS 140-1 Level 1–compliant general purpose, software-based cryptographic module in the kernel mode level of the Windows operating system. It runs as a kernel mode export driver (a kernel mode DLL) and encapsulates several different cryptographic algorithms in an easy-to-use cryptographic module accessible by other kernel mode drivers. It can be linked by other kernel mode services to permit the use of FIPS 140-1 Level 1–compliant cryptography. For more information, see the Microsoft Kernel Mode



Accounts: Administrator account status Properties
Local Security Setting
Explain This Setting
Accounts: Administrator account status
The security policy determines whether the local Administrator account is enabled or disabled.
Default: Enabled.
Notes:
If you try to reenable the Administrator account after it has been disabled, and if the current Administrator password does not meet the password requirements, you cannot reenable the account. In this case, an alternative member of the Administrators group must reset the password on the Administrator account. For information about how to reset a password, see "To reset a password."
Disabling the Administrator account can become a maintenance issue under certain circumstances. For example, in a domain environment, if the secure channel that validates your logon fails for any reason, and there is no other local Administrator account, you must restart in Safe Mode to fix the problem that is causing your connection to fail. Under Safe Mode boot, the Administrator account is always enabled, regardless of the setting.
For the latest information about this setting, see the Knowledge Base

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Bishop of Trenton

That I've got the key

Oh
So get in the car
We can ride it
Wherever you went
Get inside it
And you want to steer
But I'm shifting gears
I'll take it from here (Oh! Yeah yeah!)
And it goes like this (Uh)

[Chorus:]
Take me by the tongue
And I'll know you (Uh)
Kiss me 'til you're drunk
And I'll show you

All the moves like Jagger
I've got the moves like Jagger
I've got the moves like Jagger

I don't need to try to control you (Oh, yeah)
Look into my eyes and I'll own you

With them moves like Jagger
I've got the moves like Jagger (Yeah yeah)
I've got the moves like Jagger

[Bridge:] *(Unintelligible)*
You wanna know how to make me smile
Take control, own me just for the night
And if I share my secret
You're gonna have to keep it
Nobody else can see this

So watch and learn
I won't show you twice
Head to toe, ooh baby rub me right
But if I share my secret
You're gonna have to keep it
Nobody else can see this (Ay! Ay! Ay! Aaay!)

And it goes like this

[Chorus:]
Take me by the tongue (Take me by the tongue)
And I'll know you
Kiss me 'til you're drunk
And I'll show you (Yeah yeah yeah!)

All the moves like Jagger
I've got the moves like Jagger
I've got the moves like Jagger

Pressure Sensitive SIGN VINYL

FEED MATERIAL into cutter so that the weed corner is on the bottom.

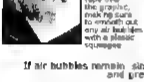
REMOVE PAPER CARRIER by gently rolling the carrier off the back of the vinyl. Do not remove the paper carrier until ready to apply to substrate.

CUT image in positive form

PREP SURFACE— Be certain the surface of the substrate is smooth, clean and free from debris before positioning the vinyl graphic.

WEED away excess material leaving only the desired graphic on the carrier

POSITION GRAPHIC— Use squeegee to remove any air bubbles.



PLACE the Dry Mask tape over the graphic, main tip sure to smooth out any air bubbles with a plastic squeegee

REMOVE PRE-MASK AND FINISH APPLICATION. Once graphic is positioned on application, remove the Pre-Mask Tape and repeat steps no. of graphic from original design out, with care. Do not use squeegee directly on vinyl.

If air bubbles remain, simply puncture with small straight pin and press out with fingers.

Recommended Substrates

hard goods
windows
hockey sticks
water bottles
helmets
etc.

Accessories Required

Pre-Mask Tape
plastic squeegee
EZ Weeder® or Tweezers

Cutting Notes

You should always test cut prior to any production run. For optimal cutting and weeding, maintain a line thickness of at least 1/8" for logos.

Durability

Tested dishwasher cycles on water bottles, etc. Up to three year outdoor life.

Storage

Store in cool, dry area. For best results, keep unused vinyl rolled until ready to cut and apply.

DMV Facts

- In order to obtain a motorcycle permit study the Motorcycle Manual so you can pass the written motorcycle test
- Once you've studied you can appear at a local DMV office that administers written tests with your filled-out Form MV-44 and the $21 permit fee.
- To pass the written test, you must give the correct answers to at least 14 of the 20 multiple-choice questions
- After taking and passing the written motorcycle test, the DMV will issue you a Class M learner's permit.
- This permit is valid for one year and may be renewed once without retaking the test.
- The Class M permit allows you to drive a motorcycle as long as a driver 21 or older with a valid motorcycle license supervises you and remains within ¼ mile of you at all times
- If you do not have a valid New York State driver's license, you'll need to study two manuals – the Motorcycle Manual and the Driver's Manual – and take both written tests. In addition, you will be required to take either a five-hour pre-licensing course or a full driver education course before you can make your road test appointment.

Duties to Clients and Customers
Duties to the Public
Duties to REALTORS®

Where the word REALTORS® is used in this Code and Preamble, it shall be deemed to include REALTOR-ASSOCIATE®s.

While the Code of Ethics establishes obligations that may be higher than those mandated by law, in any instance where the Code of Ethics and the law conflict, the obligations of the law must take precedence.

Preamble

Under all is the land. Upon its wise utilization and widely allocated ownership depend the survival and growth of free institutions and of our civilization. REALTORS® should recognize that the interests of the nation and its citizens require the highest and best use of the land and the widest distribution of land ownership. They require the creation of adequate housing, the building of functioning cities, the development of productive industries and farms, and the preservation of a healthful environment.

Such interests impose obligations beyond those of ordinary commerce. They impose grave social responsibility and a patriotic duty to which REALTORS® should dedicate themselves, and for which they should be diligent in preparing themselves. REALTORS®, therefore, are zealous to maintain and improve the standards of their calling and share with their fellow REALTORS® a common responsibility for its integrity and honor.

In recognition and appreciation of their obligations to clients, customers, the public, and each other, REALTORS® continuously strive to become and remain informed on issues affecting real estate and, as knowledgeable professionals, they willingly share the fruit of their experience and study with others. They identify and take steps, through enforcement of this Code of Ethics and by assisting appropriate regulatory bodies, to eliminate practices which may damage the public or which might discredit or bring dishonor to the real estate profession. REALTORS® having direct personal knowledge of conduct that may violate the Code of Ethics involving misappropriation of client or customer funds or property, willful discrimination, or fraud resulting in substantial economic harm, bring such matters to the attention of the appropriate Board or Association of REALTORS®. (Amended 1/00)

Realizing that cooperation with other real estate professionals promotes the best interests of those who

Image scanner

From Wikipedia, the free encyclopedia

In computing, an **image scanner**—often abbreviated to just **scanner**—is a device that optically scans images, printed text, handwriting, or an object, and converts it to a digital image. Common examples found in offices are variations of the *desktop (or flatbed) scanner* where the document is placed on a glass window for scanning. *Hand held scanners*, where the device is moved by hand, have evolved from text scanning "wands" to 3D scanners used for industrial design, reverse engineering, test and measurement, orthotics, gaming and other applications. Mechanically driven scanners that move the document are typically used for large format documents, where a flatbed design would be impractical.

Desktop scanner with the lid raised. An object has been laid on the glass, ready for scanning.

Modern scanners typically use a charge coupled device (CCD) or a Contact Image Sensor (CIS) as the image sensor, whereas older *drum scanners* use a photomultiplier tube as the image sensor. A *rotary scanner*, used for high-speed document scanning, is another type of drum scanner, using a CCD array instead of a photomultiplier. Other types of scanners are planetary scanners, which take photographs of books and documents, and 3D scanners for producing three dimensional models of objects.

Another category of scanner is digital camera scanners, which are based on the concept of reprographic cameras. Due to increasing resolution and new features such as anti-shake, digital cameras have become an attractive alternative to regular scanners. While still having disadvantages compared to traditional scanners (such as distortion, reflections, shadows, low contrast), digital cameras offer advantages such as speed, portability, and gentle digitizing of thick documents without damaging the book spine. New scanning technologies are combining 3D scanners with digital cameras to create full-color, photo-realistic 3D models of objects.[*citation needed*]

In the biomedical research area, detection devices for DNA microarrays are called scanners as well. These scanners are high resolution systems (up to 1 µm/pixel), similar to microscopes. The detection is done via CCD or a photomultiplier tube (PMT).

Printer Connection screen

Here the connection between the printer and your computer can be set up automatically. Follow the procedures displayed on the screen.

When the installation fails to advance and the **Printer Connection** screen is still displayed:

First try "Solution 1" below.

Solution 1

1. Ensure that the printer is securely connected to the computer. If the connection seems secure but the problem still remains, try step 2 below.
2. Turn off the printer.
3. Unplug the connecting cable from the printer, and then connect it again.
4. Turn on the printer.

If the installation still fails to advance beyond this point, try reinstalling the driver following the instructions below.

Solution 2

1. On the **Printer Connection** screen, click **Cancel**.
2. When the **Installation Failure** screen is displayed, click **Start Over**.
3. When the **Easy Install / Custom Install** screen is displayed, click **Back**.
4. Click **Exit**, and then remove the CD-ROM.
5. Turn off the printer.
6. Restart the computer.
7. Reinstall the printer driver following the procedures described in your *Start Guide*.

DUMMY FAX DOCUMENT

NO CONTENT HERE

Thank you for choosing VIVO TECHNOLOGY - we really appreciate your business!

We hope the item you have received is exactly what you were expecting, and that there are no problems with your purchase. This is our main goal for each order! However, we know that sometimes problems do occur, despite our best intentions. Therefore, in the event you need to contact us, here is some information that will be helpful:

The best way to contact us... is to locate the order confirmation email that you received at the time of purchase, and simply reply to that email with your questions or comments. It should go directly to us -- sales@vivotechnology.net -- and it should include all your purchase information that we'll need to assist you. *Please note: If you already deleted or cannot find your confirmation email, just email us directly - but be sure to give us the details about your order so we can quickly help you.*

If you think the part you received is *not* **the part you ordered** ...please double-check the ad photo to make sure we did not send you what is shown. Then email us a photo of what you received (or a very clear description of it) and tell us how the item you received differs from what you need. We will do our best to resolve the problem as quickly as possible.

If the part you received does not seem to be working correctly ...please email us with an explanation of the problem *before* you installed the new part, as well as what happened after you installed the new part, as well as the exact number of your original part so we can confirm you ordered the correct new part. There are many variables involved when something is not working properly, so it's important that you are cooperative and provide us with the needed information so we can effectively troubleshoot your problem and provide you with the best service possible.

Please do not contact a third party, such as PayPal or your credit card issuer if you are having problems. We will help you! We try to answer all inquiries **within 24 hours** during regular business hours, but please be patient, as sometimes it may take a little longer to receive a reply, especially after the weekends or holidays. ☺

I will poll the girls on more options for the away matches. I left the default dates of Saturday for those. If one show if Sunday 2pm is a good time for home matches.

Remember that we have a practice this coming Sunday 3-4:30pm to practice some positioning and strategy and get the kids playing some challenge matches.

Let me know if your child is interested in also playing an older age group.

FROM EXTENDED ENDOCRINE THERAPY[2]

Test Description and Clinical Evidence

BCI is a gene quantitative RT-PCR assay that provides two outputs based on unique gene expression signatures: BCI Prognostic and BCI Predictive.

BCI Predictive provides a prediction of likelihood of benefit from extended (5-5 years) endocrine therapy (EET).[2] Patient results are reported as either High or Low Likelihood of Benefit. BCI Predictive was validated in the NCIC-CTG MA.17 trial.[3,4]

BCI Prognostic provides an individualized risk for distant recurrence in the late (5-10 years post diagnosis) ... risk category is provided based on pre-specified cut ... cohorts.[1,2]

Independent validation data of BCI Prognostic in TransATAC[2]

Risk of recurrence for lymph node-negative patients from years 5-10 by BCI risk groups in TransATAC[2]

Risk of recurrence for lymph node negative patients from years 0-10 by BCI risk groups in TransATAC[2]

In clinical studies, BCI Intermediate risk had a statistically similar risk of late (5-10 years) recurrence as the BCI high risk group. Therefore, ... reported as Low or High risk only.

4 Setup Receive

Basic receiving operations (FAX-1840C, MFC-3240C and MFC-3340CN only)

Choosing the Receive Mode

There are four different Receive Modes for your machine. You can choose the mode that best suits your needs.

LCD	How it works	When to use it
Fax Only (automatic receive)	The machine automatically answers every call as a fax.	For dedicated fax lines.
Fax/Tel (with an external or extension answering)	The machine controls the line and automatically answers every call. If the call is a fax, it will receive the fax. If the call is not a fax it will ring (pseudo/double ring) for you to pick up the call.	Use this mode if you expect to receive fax of fax messages and fax telephone calls. You cannot have an answering machine on the same line, even if it is not a separate wall jack on the same line. You cannot use the telephone company's Voice Mail in this mode.
External TAD (with an external answering device only)	The external answering device (TAD) automatically answers every call. Voice messages are stored on the external TAD. Fax messages are printed.	Use this mode if you have connected an answering device to your machine. The External TAD setting works only with an external telephone machine. Ring Delay only not work in this setting.
Manual (manual receive) (with an external or extension telephone or with Distinctive Ring)	You control the phone line and must answer every call yourself.	Use this mode if you do not connect many fax messages, with Distinctive Ring, or if you are using a computer on the same line. If you answer and hear fax tones, wait until the external takes over the call, then hang up. (*See Easy external (MFC-3240C) and MFC-3340CN only*) on page 4-8.)

Busy hour call attempts

Description

The chart below shows the busy hour call attempts (BHCA) for each busy interval. BHCA is represented as a sum median of call's completed, calls rejected and other failures during the busy hour as measured by calls attempted. If multiple PBXs are video, the results is aggregated to determine a combined busy hour. Since the busy hour is calculated daily, the chart will cover pilot data more frequently than daily.

NW PRINT STRATEGIES

PRINTERS COPIERS PEOPLE YOU CAN COUNT ON

Hello,

First and foremost I want to say thank you on behalf of the NW Print team and myself for providing us with the continued opportunity to be your printer service and supply vendor. We work very hard to be the most responsive, reliable, trustworthy office equipment support company available to you in the market. We truly view doing business with you as a privilege.

Today I am reaching out in order to make sure you are also aware of the following other technologies that we can fully support in addition to your printers.

- **COPIER LEASING**: NW Print is an authorized reseller for Xerox.
- **WIDE FORMAT/PLOTTERS**: NW Print supplies hardware, ink, paper, and on-site repair.

Thanks for taking the time to review this short letter. Our hope is that you may also make a consideration for NW Print to be your support company in these other areas as well.

Please let me know if you have any questions and/or if you would like to meet to discuss anything further at this time.

Best regards,

Trevor Stoke

The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers and other entities covered by GINA Title II from requesting or requiring genetic information of an individual or family member of the individual, except as specifically allowed by this law. To comply with this law, we are asking that you do not provide any genetic information when responding to this request for medical information. "Genetic information," as defined by GINA, includes an individual's family medical history, the results of an individual or family member's genetic tests, the fact that an individual or an individual's family member sought or received genetic services, and genetic information of a fetus carried by an individual or an individual's family member or an embryo lawfully held by an individual or family member receiving assistive reproductive services.)

KRAS Mutation Analysis by PCR

Intended Use: This *KRAS* mutation analysis PCR assay is a qualitative test for 11 *KRAS* mutations. *KRAS* is a proto-oncogene that encodes a GTPase involved in signal transduction pathways regulating cell growth and proliferation. *KRAS* mutations are found in approximately 40% of colorectal cancers (CRC) and are associated with resistance to anti-EGFR monoclonal antibody therapy (e.g., cetuximab, panitumumab). The most common *KRAS* mutations are located in codons 12 and 13 of exon 2, with additional clinically relevant mutations in exons 3 and 4. This assay detects the following *KRAS* mutations: [illegible]. Mutations in codons 12 and 13 of exon 2 are associated with resistance to anti-EGFR therapy in metastatic CRC and are the primary basis for clinical decision-making. Mutations in exons 3 and 4 are rare (<5% of CRC cases) but may also confer resistance to anti-EGFR therapy. The significance of rare or novel *KRAS* mutations not listed above is unknown.

If *KRAS* is "Not Detected" in a tumor sample, it does not necessarily mean that no *KRAS* mutation is present, but rather that a mutation is not present at a level above the limit of detection of the assay. Therefore, a "Not Detected" result should be interpreted in the context of the patient's clinical and pathological findings. Additional testing may be considered if clinically indicated.

If *KRAS* is "Detected", the specific mutation(s) identified is listed. A "Detected" result indicates that a mutation is present at a level above the limit of detection of the assay. Clinical correlation is recommended.

Intended Use

The Breast Cancer Index (BCI) 10 Year Recurrence Risk & Extended Endocrine Benefit Test is indicated for patients diagnosed with estrogen receptor positive (ER+) Stage I and Stage II A-lymph node-negative (LN-) breast cancer and provides 1) a quantitative assessment of the likelihood of overall (0-10 years) early (0-5 years) and late (post-5 years) distant recurrence and 2) prediction of likelihood of benefit from extended (>5 year) endocrine therapy in patients who are recurrence-free after an initial 5 years of adjuvant endocrine therapy. Treatment decisions require correlation with all other clinical findings.

For LN+ Patients

Risk of recurrence reported on Page 1 was derived based on a LN- patient profile. BCI has been validated in LN+ patients; however, BCI scores that result from testing in LN+ patients are associated with a higher risk of recurrence compared with LN- patients with the same BCI score.[4] The likelihood of benefit from extended endocrine therapy benefit [BCI (H/I)] was validated in a cohort that included both LN- and LN+ patients.

Test Description

BCI is a multi-gene quantitative RT PCR assay that provides information regarding a patient's risk for distant metastasis and prediction of response to extended (>5 years) endocrine therapy. BCI was developed from the combination of two gene expression -based biomarkers: HOXB13/IL17BR ratio [BCI (H/I)] and Molecular Grade Index (MGI). BCI (H/I) is a biomarker that is associated with tumor responsive ness to endocrine therapy in % least cancer.[2,3] MGI consists of the average expression of five cell cycle associated genes (BUB1B, CENPA, NEK2, RACGAP1 and RRM2) and provides quantitative and objective molecular assessment of tumor grade and proliferative status.[1] These two biomarkers are individually predictive of patient outcome in ER+ LN- patients receiving adjuvant endocrine therapy, but their combined use provides a more accurate prediction of risk of recurrence than either alone.[5]

Methodology

BCI is a real time RT PCR assay that measures the expression of H/I, MGI and four normalization genes. RNA is extracted from macrodissected formalin-fixed paraffin embedded tu mo samples, converted to cDNA by reverse transcribing the extracted RNA, and quantitative PCR is performed using Taqman™ technology. The BCI score is calculated by combining these values into a continuous index. Results are presented as a recurrence score ranging from 0 to 10 and are categorized into three levels of risk: low risk, BCI < 4.1; intermediate risk, 5.1 >= BCI < 8.6; high risk: BCI >= 8.5. For determining likelihood of extended endocrine benefit, High and Low BCI (H/I) are determined by a previously validated cut-point.[3]

BCI provides a quantitative assessment of the likelihood of distant recurrence to patients diagnosed with ER+ node-negative breast cancer, and indication of likelihood of benefit from extended (>5 years) endocrine therapy in patients who are recurrence-free after an initial 5 years of adjuvant endocrine therapy. Treatment decisions require correlation with all other clinical findings. This test was developed and its performance characteristics determined by bioTheranostics, Inc. It has not been cleared or approved by the U.S. Food and Drug Administration. The test is used for clinical purposes. It should not be regarded as investigational or for research. How this information is used in guiding patient care is the responsibility of the physician. bioTheranostics is certified under the Clinical Laboratory Improvement Amendments of 1988 to perform high complexity clinical laboratory testing.

Troubleshooting

More than one access point/wireless router has been found that matches your wireless network's name (SSID). If this is unintended, your HP printer might connect to the wrong wireless network. If you change your network's name, you will need to configure the SSID on all of your wireless devices to match the new network SSID. **

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Marijuana Info Sheet

Marijuana or 'weed' – psych active drug which is usually smoked/vaped, but can also be mixed with food. Tetrahydrocannabinol (THC) is the main psychoactive ingredient in marijuana

- 68% of US students have never used marijuana
- Less than 5% of Americans report using it weekly

How does marijuana affect the brain?

THC interacts with cannabinoid receptors in the brain and cause a reaction that leads to the "high" feeling the marijuana users experience. So many of the brain have multiple cannabinoid receptors while a few have few or none. The highest amount of cannabinoid receptors are found in the parts of the brain that influences pleasure, memory, thinking, concentration, sensory perception and coordinated movement. These are the areas of the brain most affected by marijuana, both biologically and behaviorally

Marijuana is not as harmful to my health as tobacco or alcohol, right?

Although you cannot overdose on marijuana there are still many negative effects on health such as

- Like with the lungs causing redness, coughing, mucous and a heightened risk of lung infections
- Increases heart rate by 20-100% after smoking due to the heart adjusting to the high carbon dioxide levels
- Causes dry mouth, studies show a 400% increase in odor causing bacteria during use
- Reduces the functioning of the sexes, though users report it actually enhances arousal

Can marijuana affect my performance in school?

Yes, regular use influences academic performance in the following ways

- Impairs short term memory
- Diminishes attention to detail and ability to focus on goals
- Causes concentration problems
- Processing information accurately is also reduced with heavier use

Can you get addicted to marijuana?

Long term abuse can lead to addiction, which is defined as drug seeking and abuse despite the known harmful effects on functioning within family, school, work and relational activities

If you spend $20 per week on marijuana...
That's $1,040 per year!

THE CHINESE DRAGON WEAKENS

BY MICHAEL KINSMAN

There was a time in the 1960s that manufacturing was the kingpin of the U.S. economy. At the time, the U.S. produced more than 40 percent of everything manufactured around the world.

More importantly, the explosive growth of manufacturing after World War II provided millions of Americans with good-paying, stable jobs. We may never return to that time again, but there are signs that America's manufacturing ship is about to rebound from a 40-year slump.

A recent study by Boston Consulting Group reveals that the large advantage China has leveraged to siphon manufacturing jobs away from the United States may be refreshing. The tipping point may come as early as 2015, according to the study.

"Greater automation would accelerate the primary advantage of outsourcing to China, which is access to cheap labor," says Harold L. Sirkin, a BCG senior partner and lead author of the study. "Once companies carefully look at all the costs, many will find they'll be better off making their products closer to customers in the U.S."

Over the past few decades China has been a major beneficiary of manufacturing jobs once produced here. Low-cost labor and a large available pool of it, allowed the Chinese to undercut existing manufacturers.

But labor costs in China have been growing 15 to 20 percent a year, according to the consulting firm, while shipping costs and rising land prices are making it a less attractive option.

Boston Consulting's study estimates that within four years, China may be only 11 to 15 percent below U.S. manufacturing costs, which would mean that companies would be less likely to use overseas labor.

To put things in perspective, about 35 percent of California jobs were in manufacturing two decades ago. Today, manufacturing accounts for only 8.8 percent of the state's employment.

In San Diego, there were 120,000 working in manufacturing in 1991, or about 11.5 percent of all jobs. Midway through 2011, there were only 92,000 manufacturing jobs in the county, or just 7.3 percent of all employment.

A resurgence in domestic manufacturing would be a boon to the local economy. Manufacturing jobs are often good-paying jobs to skilled workers. And workers learn additional skills as the nature of manufacturing changes, making those longer-term jobs than the ones a lot of Americans now have.

The study says some manufacturers are already relocating factory work from China to nations with lower labor costs, such as Vietnam, Indonesia and Mexico. But, it adds, these countries may not be able to absorb all the higher-end manufacturing that otherwise would go to China because they lack the infrastructure, skilled workers, trade and domestic supply networks. It predicts that Chinese manufacturing will remain important for some U.S companies because China is the world's largest growing consumer market, and because U.S companies will still need to manufacture goods for sale in the Asian markets.

Offshore manufacturing, the Boston study concludes, may always remain a viable option for U.S companies, but China will no longer be the default option, the study concludes

Why do we need a national disability support program?

1.9 million Canadians live with severe long-term disabilities.

Those with proper supports in place (housing, assistive technologies, respite care, etc.) are able to lead full lives and participate in their communities. Unfortunately, very few Canadians with disabilities receive the supports they need to live dignified lives.

No one chooses disability. Canadians who are born with or acquire disability should not face bankruptcy, long-term hospitalization, or homelessness as a result. In this day and age, we should be confident that we will be looked after with access to needed supports.

Countries like Australia have already created national disability support programs – why can't Canada?

What will a national program include?

ECC will be an inclusive, collaborative process to create a "made in Canada" program. ECC Coalition members will discuss what should be included in a Canadian program at provincial and national conferences.

Support the Movement!

You can support ECC in 5 easy ways

1. Sign up as a supporter online
2. Tell others about ECC
3. Host an ECC meeting in your community
4. Email us to sign your organization up as an ECC Coalition member
5. Contact us to make a financial contribution

What is Child Abuse

Neglect

A person or other person responsible for a child's care and protection

- ...ntionally fails to provide basic physical, medical, or supervisory needs
- ...excuses or ignores hazards
- ...desert a child

You should always report when a child's basic needs are not being met or the caregiver's care or action is harmful. A child needs protection and may need services or support.

Emotional Abuse

A pattern of severe psychological mistreatment including:

- ...hurting, intimidating, or ignoring the child
- ...withholding affection
- ...exposing a child to chronic violence or substance abuse
- ...encouraging a child's criminal or destructive behavior

Physical Abuse

Any intentional act that harms a child by such means as:

- ...striking, kicking, choking, shaking, throwing, or drilling
- ...burning, biting, or stabbing
- ...whipping, or using a weapon
- ...excessive punishment that causes significant injury

Sexual Abuse

Sexual abuse occurs when an adult uses a child for sexual gratification. For example:

- ...sexual or genital contact
- ...incest
- ...indecent exposure
- ...having a child pose or perform in sexual manner
- ...involving a child in prostitution or pornography

Step 1. (after ensuring the internet light is 'ON' on the modem)

Connect to the internet directly off of the modem by either:

1 a Wired: connect to one of the four available ports on the back

1 b Wireless: Connect to the CenturyLink0960 network with password on bottom of modem'

Step 2: Browse to 192.168.0.1 and log into the web page displayed with the following credentials

Username: admin password: on bottom of modem

Step 3. Select Advanced Setup

Step 4: Select WAN settings along the left hand side

Step 5. For ISP protocol select Transparent Bridging

Step 6. Click OK or APPLY

Step 7: From another computer (not the one connected in step 1) browse to https://192.168.7.1:1445 and if prompted chose continue to this site

Step 8. When the site comes up you will see near the center three options, including connect, disconnect and refresh. Click connect, and if prompted for username and password provide that information. The profile should then go to connected and your internet should be working again

and receiving a fax with it. Here?s how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-510-545-0990 (a number in Northern California.) When it?s finished transmitting, point your web browser to Fax Toy http://faxtoy.net/ ? it?s a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. http //faxzero com/ this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring ? hopefully, it will automatically answer and spit out the test fax.

Contribution Types

Before-tax or Roth, which do I choose?

Savings Plus offers you flexibility in how you save for retirement. You can choose to make before-tax Roth or both types of contributions in either the 401(k) Plan, the 457 Plan, or both. The main difference between the two contribution types is that taxes are withheld from your Roth contributions before they are invested in your account and before tax contributions and any potential earnings are taxed when they are withdrawn. The biggest benefit with Roth is that your contributions and earnings are then tax-free when distributed, as long as you meet the distribution requirements. These options don't change how much you can contribute but do give you more control over when your contributions and any potential earnings will be subject to income tax.

Before-tax vs. Roth at a glance

	Before-Tax Contributions	Roth Contributions
Taxability	Reduces your taxable income in the year you contribute.	Taxed in the year you contribute before contributions are deducted from payroll
Contribution limits	Before-tax and Roth combined are subject to the annual contribution limit for the current tax year	Before-tax and Roth combined are subject to the annual contribution limit for the current tax year
Money coming out	Taxable as current income when distributed	Tax-free distributions as long as you've kept your money in Savings Plus for at least five years from your first Roth contribution and withdraw after age 59½. You must also be separated from State service for tax-free 457 Roth distributions

How do you decide if Roth contributions are right for you?

If you believe you'll be in a higher tax bracket when you retire, Roth contributions may make sense, since tax-free distributions could provide a significant tax break at retirement. However, if you believe you'll be in a lower tax bracket when you retire, it may make more sense to contribute on a before-tax basis, which could provide a tax break today.

You might choose Roth if you:

- Expect to be in a higher tax bracket in retirement
- Are in a low tax bracket today
- Prefer tax-free withdrawals in retirement

The profile is supplied with the test kit in the ***SampleProfile.dnp*** file. Using the noise profile, Neat Video can efficiently reduce the noise in the video sequence.

➡ 1. Click the (blue disk) in the **Device Noise Profile** box on the right panel.

2. In the **Open Device noise profile** dialog, navigate to the folder where the sample device noise profile has been unzipped and double-click on the ***SampleProfile.dnp*** file.

The sample noise profile is now open and Neat Video is almost ready to filter the sample clip. Usually you would adjust the filter settings at this stage. To make things easier for the first run of Neat Video, we have prepared a sample preset file that stores "good" filter settings suitable for the sample clip.

3 Load filter preset

➡ 1. Switch to the **Noise Filter Settings** tab.

2. Click (pink disk) in the **Filter Preset** box on the right panel.

3. In the **Open filter preset** dialog, navigate to the folder where the sample filter preset has been unzipped and double-click on the ***SamplePreset.ngfp*** file.

Now the sample filter preset is open and the filter settings are adjusted to process the sample clip.

4 Apply the intra-frame filter settings

➡ Click **Apply** on the profiler.

The **Neat Video plug-in** window will be closed and you will see the **Neat Video Configuration** window.

➡ Click the **OK** button in the **Neat Video Configuration** window (keep the default values of the **Temporal** filter settings) and then in the **Filters** window.

Both **Neat Video Configuration** and **Filters** windows will be closed and you will see the main window of VirtualDub with two – before and after – versions of the sample clip (you may have to move the Trackbar to select another frame to update the after version). The after version will show the results will show the effect of applying the noise reduction to the clip.

2.4 Stage IV. Apply noise reduction to the clip

➡ Use the **File | Save as AVI...** menu item in VirtualDub.

This will automatically apply Neat Video noise reduction to the sample clip and save the result to a new video file on the hard drive. You will then be able to open this new file, evaluate the filtration results and adjust the filter settings if necessary.

Please note that the noise in the resulting clip will be significantly reduced while the true details will be preserved. You can also find that the resulting noise-free clip can be compressed better (the file size is smaller) than the original noisy clip (this depends on VirtualDub's compression settings, which can be adjusted using the **Video | Compression...** menu item).

The sample noise profile and sample filter preset supplied with the test-kit are suitable only for the sample clip and sets of similar clips produced by the same capturing device working in the same or similar mode. Neat Video can perform similar noise reduction on video clips captured or acquired by any other devices working in any mode. To be able to do that Neat Video needs device noise profiles that describe the noise characteristics of those devices. With Neat Video you can easily build these profiles yourself. The software can completely automatically build a profile once you give it a suitable frame from a clip.

Please also see the complete user guide (available by pressing F1 in the software) for more details on filtration and profiling processes.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord: so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur

What is Lorem Ipsum? (2)

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

This is a demo of Word Form PDF Form Conversion

eDocPrinter PDF Pro Word addin supports converting Word Form to PDF Form since Ver 6.03 Build 2980. Users have to enable Word Form to PDF Form conversion in settings of Addin. Users can also set other options like border color, text color and field background color in the setting dialog. Since 6.20 Build 4268 the addin will automatically detect the font size, max mum characters and color when converting the fields. Hence each field can have its own font size, color and background color.

In addition to the text field, dropdown list and check box supported by Word, eDocPrinter PDF Pro addin also supports multi line text fields, submit and reset button with its proprietary naming scheme. This makes the PDF form easily integrate with the web interactions.

Please enter your name Please enter your name in the text field

This This is a TEXT FIELD DEMO

☒ Check this box if you think it's good!! ☒

This is a dropdown menu for selection ITEM1

Text field 2 Check box 2 ☐

How to create a Multi-line text box field
Insert name the text field box with "ML_" prefix and enable converting multi line text filed. Since 6.19 Build 4997, the prefix is changed to "ML_nnn_" when num means the num of lines. Default value is 4 is no such "nnn_" assigned. Here is a demo

How to create Submit and Reset button?
Users have to insert a text field with its name equal to "SubmitForm". The value of this field will be the text shown on submit button after converting to PDF. The default text of this field will be the action URL for submitting. It is similar for creating "ResetForm" button. Users can choose the submit data format and method in the setting dialog of Word addin of eDocPrinter PDF Pro. Example of SubmitForm and ResetForm buttons

DIAMOND IN THE ROUGH

He was over 50 when we married, a bachelor without strings. He got a widow with a bright, difficult collegiate daughter; a brighter, even more difficult adolescent son, a ramshackle house; a distant mother-in-law and even a cantankerous cat. For three years, the winds of chance have blown often and hard, but wherever they took us he has been there at my side. I have been promoted twice, the kids are on track, our new home is snug and cozy, my mother is happily settled nearby. And as for the cat, she sleeps on his feet, the most contented of us all.

Here are some frequently used terms that you may not be familiar with. Please remember that your agent is a customer service representative if you have additional questions. These definitions may not reflect your specific contract or coverage. If there are any differences, the policy language governs.

dividend – Provides insurance participants a share of the company's profits and may be paid in cash or used to purchase additional paid-up insurance or to reduce the premium owed.

Enhanced Option Term Rider (EOTR) – A rider that provides additional term insurance on the primary insured. This rider is purchased with out-of-pocket payments. Provides a death benefit and a combination of both.

excess cash value – Your policy has a minimum guaranteed cash value. Any cash value in excess of that minimum, which you can draw from the use of more favorable interest and mortality rates than guaranteed, is referred to as excess cash value.

grace period – Period beyond the premium due date, by which policy will not lapse for non-receipt or late payment.

insured – The name of the person or persons covered by the insurance policy.

interest during policy year – Any interest paid during a policy year.

lapse – Termination of coverage.

Modified Endowment Contract (MEC) – The Internal Revenue Code limits the amount of annual premium payments that can be made to a life insurance policy. If the client exceeded a life insurance policy will become a modified endowment contract, or MEC. There may be tax consequences associated with owning a MEC. If your policy is a MEC, policy proceeds as well as withdrawals, and distributions may be subject to income taxes, including a 10% penalty tax. Consult your tax advisor. If your policy becomes a MEC we will let you know in writing.

Premium Offset Proposal (POP) – Allows policy owner to select or cash the policy's cash value to pay their premium.

net amount due – Gross policy premium less any policy and/or the amount of any loan or interest on a policy owned, payable at a New York Life Policy life date anniversary.

Net Premium Offset Proposal (NPOP) – Allows policy owners to use all or a portion of available net cash value to pay their premium. Policy values are offset by loans utilized for the premium.

Option to Purchase Paid Up Additions (OPPA) – A rider that allows the policyowner to purchase additional paid up insurance on the life of the primary insured.

paid up insurance – An amount of life insurance purchased by the policyholder that is additional to the policy's face amount. Once purchased, no additional premiums or payments are required. The amount of coverage in force is determined by cash value and is available for policy loans.

Partial Premium Offset Proposal (PPOP) – Allows policy owner to repay out-of-pocket premiums made to New York Life toward the premium, which will be treated as scheduled premiums. The balance of the premium is paid through available dividend values.

policy loan – The amount of the outstanding policy loan on the date that it was prepared, including any unpaid interest and unearned policy loan interest.

premium – The payment required to keep your life insurance policy and coverage in force. Payments are often due annually with a discount for more frequent payments.

Premium Deposit Account – The Premium Deposit Account is an optional feature available with the policy in which you pay premiums beyond the minimum required to maintain your policy. The excess funds are held in an interest bearing account. You can withdraw funds from your Premium Deposit Account at any time. New York Life will automatically pay the premiums due on the policy unless you request a Premium Deposit Account withdrawal, if applicable.

We've noticed a survey Add info@zoomrx.com to your address book.

Hello Dr

Thank you so much for your valuable participation in the ZoomRx surveys.

Our mRx app is now fully compatible with Apple's latest operating system iOS 7. Please upgrade to the latest version from App Store now.

How to upgrade :

1. **Uninstall the current app**: Hold finger over current app on your device > select "x" on top left corner
2. **Download latest version from Appstore**: Search for "ZoomRx" in the App Store and Install
3. **Login**: Login using the email

The update addresses a compatibility issue with the ZoomRx app caused by Apple's most recent iOS upgrade. We appreciate for your inconvenience caused.

We look forward to your continued participation in ZoomRx surveys.

Sincerely,

The ZoomRx Team

****Upon login with latest version, you will be asked whether ZoomRx can access your microphone. Please SELECT 'OK'. If you click on 'Don't Allow' you will be unable to complete the survey.**

Happy Monday FAX TOY!
:)

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great as strong, so prompt before the Throne of God, I place in you all my interests and desires O St Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St Joseph I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

1.2. Frugal install

Frugal is the typical installation method for Tiny Core. That is, it is not a traditional hard drive installation, which we call "scatter mode", because all the files of the system are scattered all about the disk. With frugal, you basically have the system in two files, **vmlinuz** and **core.gz**, whose location is specified by the boot loader.

Any user files and extensions are stored outside the base OS.

Solution

- If you are not using a distinctive ring service, check to make sure that the Distinctive Ring feature on the device is set to All Rings. For more information, see **Change the answer ring pattern for distinctive ring**.
- If Auto Answer is set to **Off**, you will need to receive faxes manually; otherwise, the device will not receive the fax. For information on receiving faxes manually, see **Receive a fax manually**.
- If you have a voice mail service at the same phone number you use for fax calls, you must receive faxes manually, not automatically. This means that you must be available to respond in person to incoming fax calls. For information on setting up the device when you have a voice mail service, see **Case F: Shared voice/fax line with voice mail**. For information on receiving faxes manually, see **Receive a fax manually**.
- If you have a computer dial-up modem on the same phone line with the device, check to make sure that the software that came with your modem is not set to receive faxes automatically. Modems that are set up to receive faxes automatically take over the phone line to receive all incoming faxes, which prevents the device from receiving fax calls.
- If you have an answering machine on the same phone line with the device, you might have one of the following problems:
  - Your answering machine might not be set up properly with the device.
  - Your outgoing message might be too long or too loud to allow the device to detect fax tones, and the sending fax machine might disconnect.
  - Your answering machine might not have enough quiet time after your outgoing message to allow the device to detect fax tones. This problem is most common with digital answering machines.

  The following actions might help solve these problems.

  When you have an answering machine on the same phone line you use for fax calls, try connecting the answering machine directly to the device, as described in **Case I: Shared voice/fax line with answering machine**.
  - Make sure the device is set to receive faxes automatically. For information on setting up the device to receive faxes automatically, see **Receive a fax**.
  - Make sure the Rings To Answer setting is set to a greater number of rings than the answering machine. For more information, see **Set the number of rings before answering**.
  - Disconnect the answering machine, and then try receiving a fax. If faxing is successful without the answering machine, the answering machine might be causing the problem.
  - Reconnect the answering machine, and record your outgoing message again. Record a message that is approximately 10 seconds in duration. Speak slowly and at a low volume when recording your message. Leave at least 5 seconds of silence at the end of the voice message. There should be no background noise when recording the silent time. Try to receive a fax again.

  Note Some digital answering machines might not retain the recorded silence at the

BACKGROUND ON CREDIT VALLEY CONSERVATION (CVC)

Credit Valley Conservation (CVC) is a community-based environmental organization, dedicated to protecting, restoring and managing the natural resources of the Credit River Watershed.

CVC was established by the provincial government in 1954, and is one of 36 Conservation Authorities in Ontario

Credit Valley Conservation head office is based in Mississauga, Ontario, Canada

WEBSITE: http://www.creditvalleyca.ca

OBJECTION RESPONSE

1. **We lease.**

   Either situation is eligible for participation in the program. You will require permission from landlord if you lease and our experience is that they sometimes cover costs of plant materials.

2. **Cost.**

   We work with whatever budget you have - there is no cost for our program services (we are funded by the Region of Peel) but you will have to cover the cost of plants and any other construction materials. Non-profit organizations may be eligible for funding and we can provide a list of ensure i.e. TD Friends of the Environment.

3. **Not enough green space.**

   We can work with any size space and can recommend environmental solutions for paving, walk and roofs i.e. permeable paving and parking islands, green walls and roofs.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

CAUTION! YOUR LAWYER SHOULD APPROVE BEFORE SIGNING THIS INSTRUMENT. THIS INSTRUMENT SHOULD BE USED BY LAWYER ONLY

THIS INDENTURE, made the 15th day of September, 2014,

BETWEEN MARIA VITALE, an only divorced and sole adult
Law of BENJAMIN VITALE, deceased, 1848 Bremen Avenue,
Brooklyn, New York 11214

party of the first part, and

MARIA VITALE, 1848 Bremen Avenue, Brooklyn
New York 11214

party of the second part,

WITNESSETH, that the party of the first part, in consideration of

ten dollars

paid by the party of the second part, does hereby grant and release unto the party of the second part, the heirs or successors and assigns of the party of the second part forever,

All (1 or more) that plot, piece or parcel of land, with the buildings and improvements thereon erected, situate, lying and being in the Borough of Brooklyn, County of Kings, City and State of New York, bounded and described as follows:

BEGINNING at the corner formed by the intersection of the southerly side of Bremen Avenue with the easterly side of Bay 26th Street;

RUNNING THENCE southerly along the easterly side of Bay 26th Street ninety-six feet;

THENCE easterly parallel to said Bremen Avenue, nine hundred forty four and one-half inches;

THENCE southerly parallel with Bay 26th Street and part of the distance through a party wall ninety-six feet to the northerly side of Bremen Avenue; and

THENCE westerly along the northerly side of Bremen Avenue nineteen feet four and one half inches to the corner aforesaid, the point or place of BEGINNING.

Premises Bremen as and by street number 1848 Bremen Avenue, Brooklyn, New York.

TOGETHER with all right, title and interest, if any, of the party of the first part in and to any streets and roads abutting the above described premises to the center lines thereof; TOGETHER with the appurtenances and all the estate and rights of the party of the first part in and to said premises; TO HAVE AND TO HOLD the premises herein granted unto the party of the second part, the heirs or successors and assigns of the party of the second part forever.

AND the party of the first part covenants that the party of the first part has not done or suffered anything whereby the said premises have been incumbered in any way whatever, except as aforesaid.

AND the party of the first part, in compliance with Section 13 of the Lien Law, covenants that the party of the first part will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the total of the same for any other purpose. The word "party" shall be construed as if it read "parties" when ever the sense of this indenture so requires.

IN WITNESS WHEREOF, the party of the first part has duly executed this deed the day and year first above written.

Dr. P.M. Cundall,
Mining Surveys Ltd.,
Holroyd Road,
Reading,

Dear Pete,

Permit me to introduce you to the facility of facsimile transmission.

In facsimile a photocell is caused to perform a raster scan over the subject copy. The variations of print density on the document cause the photocell to generate an analogous electrical video signal. This signal is used to modulate a carrier, which is transmitted to a remote destination over a radio or cable communications link.

At the remote terminal, demodulation reconstructs the video signal, which is used to modulate the density of print produced by a printing device. This device is scanning in a raster scan synchronised with that at the transmitting terminal. As a result, a facsimile copy of the subject document is produced.

Probably you have uses for this facility in your organisation.

Yours sincerely,

Phil.

Po-Joke #24

A nurse is giving a young medical intern a tour of the hospital.

The intern approaches one bedridden patient and asks, "Why are you here?" The patient replies, "Wee sleket cowerin timmrous beastie/O what a panic is in thy breastie."

The intern moves on to the next bed and asks the same question. "Why are you here?" The patient answers, "O my luv is like a red, red, rose that's newly sprung in June."

The intern moves on to a third bed and asks again. "Why are you here" to which the third patient replies, "The best laid plans of mice and men may often gang awry."

At this the intern turns to the nurse and asks "What ward is this anyway?" And the nurse answers "It's the Burns Unit."

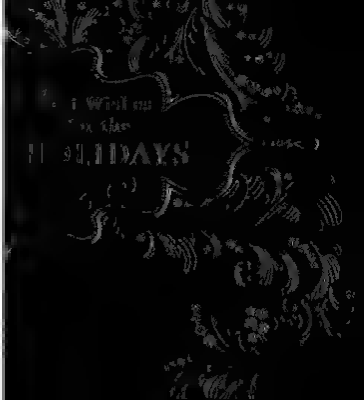
Does It Work?



A year can remain open until the adjusting entries are received from your accountant. The limitation of this is that the balance sheet accounts do not have a beginning balance for the next year until the year is closed.

Close the year after all transactions are posted. The accountant may provide adjusting entries later. Make sure that Allow Posting to History open is selected in the General Ledger Setup. Then update the open year and the historical year figures.

Use Advanced Financial Analysis to create new reports or customize existing reports that are created using the Quick Financial Setup window. The formats for these statements can be saved and then printed with updated information.

80225-General Ledger – Additional Functionality

Use Multidimensional Analysis to record detailed data about transactions and to perform detailed analysis of that data after posting, without creating a highly detailed chart of accounts. This is possible because an unlimited number of analysis groups and codes can be assigned to individual transaction distributions.

Use Multidimensional Analysis to:

- Set up an unlimited number of analysis codes and groups
- Combine analysis codes into groups
- Automatically apply information to transaction distributions
- Perform comprehensive inquiry and reporting on analysis codes

Use Intercompany Processing to:

- Record transactions in one company's Payables Management or General Ledger that create transactions in another company's General Ledger. Revenue or expenses incurred in one company (the originating company) can be tracked as due to or due from amounts in another company (destination company).
- Enter intercompany transactions that are also multicurrency transactions, if Multicurrency Management is a registered module in the Microsoft Dynamics GP system.
- Enter intercompany transactions that contain multidimensional analysis information for the originating company.
- Establish intercompany relationships between companies regardless of their account formats.

Hello.
Good Morning.
*This is a test.

- There is a large overhead from the number of bytes needed for the extension header (at least two more bytes padding this to reach at the end of the extension to some up to a "new byte" boundary (up to 3 bytes)). For many applications this overhead is unacceptable.

- Use of one header extension limits applications to a single redundant encoding, unless further structure is introduced into the extension. This would result in further overhead

For these reasons, the use of RTP header extension to hold redundant and encodings is disregarded.

The RTP profile for audio and video [illegible] two possible schemes for assigning additional RTP payload types for redundant audio applications:

1. A dynamic encoding scheme may be defined, for each combination of primary/redundant pay load types, using the RTP dynamic payload type range.

2. A single fixed payload type may be declared to represent a packet with redundancy. This may then be combined to either a static RTP payload type, or the payload type for this may be assigned dynamically.

It is possible to define a set of payload types that signify a particular combination of primary and secondary encodings for each of the 32 dynamic payload types provided. This would be a slightly restrictive yet flexible solution for packets with a single block of redundancy as the number of possible combinations is not too large however the need for multiple blocks of redundancy greatly increases the number of encoding combinations and makes this solution not viable.

A modified version of the above solution could be to enclose prior to the beginning of a conference on a set of 32 encoding combinations that will be used for the duration of the conference. All tools in the conference can be initialized with this working set of encoding combinations. Communication of the working set could be made through the use of an external, out of band, mechanism. Setup is complicated as great care needs to be taken in starting tools with identical parameters. This scheme is more efficient as only one byte is used

Test Description and Clinical Evidence

BCI provides two outputs based on a dual gene expression (quantitative RT-PCR) signature, BCI Prognostic and BCI Predictive

BCI Predictive provides a predictive Likelihood of benefit from extended (5[illegible] years) endocrine therapy [ET][2] Patient results for the test [illegible] High or Low Likelihood of Benefit. BCI Predictive is based on the HOXB13/IL17BR and was validated in the NCIC CTG MA. 17 trial[2,3]

BCI Prognostic [illegible] N+ [illegible] positive) breast cancer individuals who are [illegible] risk or distant recurrence in the next 5-10 years. The prognostic value of BCI Prognostic for LN+ patients (1-3 positive nodes) is based on the algorithm and combination of the BCI gene expression signature with tumor size and tumor grade. BCI prognostic for N+ patients was validated in a blinded study of patients with 1-3 positive nodes who were treated with adjuvant endocrine therapy only.

Intended Use & Limitations

The Breast Cancer Index (BCI) Risk of Recurrence & Extended Endocrine Benefit Test is intended for use in patients diagnosed with estrogen receptor-positive (ER+), lymph node-negative (N-) or lymph node-positive (N+) with 1-3 positive nodes) early-stage, invasive breast cancer who will complete recommended HCI guidelines. It is a quantitative assessment of the likelihood of distant recurrence between 5 and 10 years' distant recurrence following an initial 5 years of endocrine therapy. N- patients or 5 years of endocrine therapy plus adjuvant chemotherapy. N+ patients; and 2) prediction of likelihood of benefit from extended (5-10 year) endocrine therapy. BCI results are adjunctive to the existing physician's workup and clinical decisions remain consistent with all other clinical findings. This test was developed and its performance characteristics determined by Biotheranostics, Inc. It has not been cleared or approved by the U.S. Food and Drug Administration. This test is used for clinical purposes. It should not be regarded as investigational or for research. How this information is used to guide patient care is the responsibility of the physician. Biotheranostics is certified under the Clinical Laboratory Improvement Amendments of 1988 to perform high complexity clinical laboratory testing.

Think about the strangeness of today's situation. Thirty, forty years ago, we were still debating about what the future will be: communist, fascist, capitalist, whatever. Today, nobody even debates these issues. We all silently accept global capitalism is here to stay. On the other hand, we are obsessed with cosmic catastrophes: the whole life on earth disintegrating, because of some virus, because of an asteroid hitting the earth, and so on. So the paradox is, that it's much easier to imagine the end of all life on earth than a much more modest radical change in capitalism.

Holidays for Today: A Room of One's Own Day – National Irish Coffee Day – Walk Your Dog Month
Burns Night (celebration of the life and poetry of the poet Robert Burns)
– National Opposite Day – International Wealth Mentality Month – National Braille Literacy Month

BIRTHDAYS ON THIS DATE
1759 Robert Burns, Scottish poet (Auld Lang Syne)
1916 Frank "Pop" Ivy, Skiatook, Oklahoma, football coach (only person ever to serve as a head coach in the National Football League, the American Football League and the Western Intercollegiate Football Union)
1931 Dean Jones, Decatur, Alabama, actor (*Love Bug, That Darn Cat, Beethoven's Tear & Present Danger*)

HISTORICAL HAPPENINGS
1890 Nellie Bly completes her round the-world journey in 72 days
1919 The League of Nations is founded.
1993 Sears stopped production of its general merchandise catalog after 97 years.

A prospective juror in a Dallas District Court was surprised by the definition of voluntary manslaughter given the panel. "An intentional killing that occurs while the defendant is under the immediate influence of sudden passion arising from an adequate cause such as when a spouse's mate is found in a compromising position."

"See, I have a problem with that passion business," responded the jury candidate. "During my first marriage, I came in and found my husband in bed with my neighbor. All I did was divorce him. I had no idea that I could have shot him." She wasn't selected for the jury.

ONE-LINERS: Famous Last Words

"Of course it's fireproof!" – "I'll hold it and you light the fuse."
"That bear is probably just hibernating." – "Don't worry, it's strong enough to hold both of us."
"What does this button do?" – "That didn't taste right."
"You're sure the power is off, right?" – "I can make it before the train gets there."
"The odds of that happening are a million to one." – "Nice doggie."
Pull the pin and count to WHAT?!?" – "Hey, y'all! Watch this!"
"WHICH wire was I supposed to cut?" – "I can do that with my eyes closed."
"I wonder where the mother bear is..." – "Here, hold my beer."
"I know how to do this. I've seen it done on TV."
"These are the good kind of mushrooms."

The employer asked the applicant, "I see you were last employed by a psychiatrist. Why did you leave?"
"Well," she replied, "I just couldn't win. "If I was late to work, I was hostile.
"If I was early, I had an anxiety complex. If I was on time, I was compulsive."

TODAY IN TRIVIA: **What is Opposite Day?** This is a holiday celebrated by doing things in the opposite way than what you do on a normal day. That could be by talking backwards, putting your clothes on backward, walking backwards or by saying the opposite of what you really mean. Just be sure people know that you are celebrating this holiday or you might unintentionally upset someone!

General Instructions

Purpose of Form

Form 8655 is used to authorize a reporting agent for

- Sign and file certain returns,
- Make associated payments for certain returns,
- Receive duplicate copies of notices, tax information, and other written and/or oral/aural communication regarding any authority granted, and
- Provide IRS with information to aid in penalty relief determinations related to the authority granted on Form 8655.

Authority Granted

Once Form 8655 is signed, any authority granted is effective beginning with the period assessed on lines 15 or 16 and continues indefinitely unless granted by the taxpayer or reporting agent. No authorization or authority is granted for periods prior to the period(s) assessed on Form 8655.

Where authority is granted for any form, it is also effective for related forms such as the corresponding non-English reporting form, assessed return, Form 94 X, 941 SP(PR), 943-X, 944-X(PR), 944-X, or CT 10(requesting voucher or refund coupon. In addition to the periods shown on lines 15 and 16, Form 8655 can be used to provide authorization for Form 944-PR using the entry periods for Form 944. The Form also can be used to authorize a reporting agent to make deposits and payments for other related to the Form 1120 series, such as Form 1120-C, or for entry years for Form 720 on line 16.

Disclosure is limited granted at line 15 or effective as the date Form 8655 is signed by the taxpayer. Any authority granted by Form 8655 does not revoke and has no effect on any quarterly granted on Forms 2848 or 8821 or any third-party designee checkbox authority.

Reply: Evolution, morality and the law: on Valerie J. Grant's case against sex selection

1. **V.J. Grant, PhD**

1 E-mail vj grant@auckland ac nz

Sir,

In offering my article for publication (Grant, 2006), I was making a tentative suggestion to defer the decision on whether or not sex selection for social reasons should be permitted, until we know more about the processes of sex determination, or, as I argued, sex predetermination. But in his response to this idea, Dahl (in press) has leapt well into the future, to a place I had not yet imagined! And yes, I see the logic of his position. If, as I suggest, there is such a thing as sex predetermination in mammals, and if an adaptive, and possibly important, process underlies it, I should withdraw my objection to sex selection and instead argue in favour of it.

If my hypotheses were shown to be correct, it might indeed mean that fertility specialists would practise sex selection, simply to increase the chances of success. But the word 'social' would be the wrong one to describe this new preselection process; rather, this new process would need to be based on the physiological and psychological attributes of the mother-to-be. Consider, then, the case of a mother seeking to select the sex of her next child with a view to family balancing. If she had not changed along the relevant dimensions since her last pregnancy, she would be very unlikely to conceive a child at all. And if she did, it would probably mean that she would have conceived a child of the desired sex without any technical intervention.

Even though these hypothesized new processes for sex preselection could result in reducing the choices for parents of single-sex sibships, interventions that took into account the physiological and psychological attributes of the mother might increase conception rates in previously infertile women. At the present time, it could be that the low fertility rates following some common procedures (especially intracytoplasmic sperm injection) do not reflect a lack of technical expertise, but rather the possibility that the mother has some role in the predetermination and/or the ratification of the sex of her infant.

But all this is speculative and even if supported by research, it is some way into the future, especially for human sex selection.

Testing Your HP Fax Machine with the HP Fax Test Service

Print Share Feedback

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the Automatic Reports option to **Every Error** before attempting a test fax. This way, even if the test fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963).
2. When your faxes received by the HP Test Fax Service, **we** will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

SASS
STUDENTS AGAINST SERCO STRIKE

PRESS RELEASE

Local Students want end of Serco DES (DRIVETEST) Labour dispute

An online petition created aims for student support

PETERBOROUGH ON Oct08 2009 - After almost 6 weeks student who are unable to get their license are becoming extremely aggravated. A local high school student Justin Beaudoin decided to bring attention to the needs of students to the Ontario government which has yet to intervene on the strike between USW 9511 and Serco DES.

"I want the community at large to understand the true ramifications the strike is having on students who are not able to get their licenses because of the strike it is affecting our families who have to drive us to work, and to our extracurricular activities making. I hardly on parents see Justin Beaudoin. I want to make it clear that we are pinning the inability of all parties who are directly and indirectly involved at this time." he added. Over 400 students from around the community and beyond have signed the petition, DriveTest/Serco DES's strike has become a hot topic of emails, facebook and MSN conversations. The website http://www.stopthestrike.com has since begun to take the stage and has been steadily receiving names and emails. "Online petitions these days are common, but this one specifically makes sure that the person who signs it is a real person and did not enter in a fake address just to increase the signature count." Justin Beaudoin confirmed.

"Students are able to become apart of the Canadian military, but when my child is eligible for his test we get a strike. An anonymous parent said in an email to StopTheStrike.com. The site is noticing a great influx of student postings all on to help convince Jeff Leal that the student body in Peterborough (and of those who need their license) is watching. It is very much expecting that although sixteen year old students cannot yet vote, we still have a voice.

Students are considering a rally in Peterborough that may take place at any point in the near future, depending on the amount of student that will participate. The website has reached many students across the province and will continue to ribbon signatures until the strike is over or the Government puts on a temporary plan to have operations resume. "The students who are waiting for their licenses are not here to start a rebellion. We simply are sick of the strike that has taken our only chance at mobility away." Justin Beaudoin concluded.

Raccordement de l'équipement

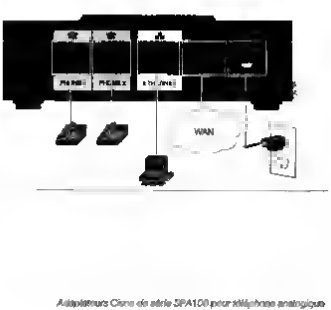
Remarque Pour obtenir les instructions de montage mural, reportez-vous à la rubrique Installation de l'adaptateur pour téléphone analogique (ATA) page 9.

Étape 1 Raccordez une extrémité du câble Ethernet fourni au port Internet **(bleu)**. Raccordez l'autre extrémité directement à votre modem/routeur du réseau à large bande. Raccordez une extrémité d'un câble téléphonique au port **Phone 1 (gris)**. Raccordez l'autre extrémité à votre téléphone analogique ou à un télécopieur.

Étape 2 Raccordez une extrémité d'un autre câble téléphonique à un autre téléphone analogique ou à un télécopieur. Raccordez l'autre extrémité au port **Phone 2 (gris)**.

Étape 3 *SPA122 seulement* De façon facultative, vous pouvez raccorder une extrémité d'un câble réseau Ethernet au port ETHERNET (jaune) de l'adaptateur pour téléphone analogique (ATA). Raccordez l'autre extrémité à un appareil de votre réseau tel qu'un ordinateur.

Étape 4 Raccordez l'adaptateur de courant fourni au port **Power** (Alimentation).



Configuration et gestion de l'adaptateur pour téléphone analogique (ATA)

Vous pouvez utiliser l'utilitaire de configuration Web embarqué pour configurer votre ATA. Vous pouvez également utiliser le système de réponse vocale interactive (RVI).

Utilisation de l'utilitaire de configuration établi sur le Web

Étape 1 Raccordez votre ordinateur au même sous-réseau que celui de l'ATA. C'est-à-dire si l'ATA est raccordé à un port LAN de votre routeur raccordez également votre ordinateur à un port LAN de votre routeur.

Remarque Sur le modèle SPA122, vous pouvez raccorder l'ordinateur au port **ETHERNET** (jaune) de l'ATA.

Étape 2 Mettez l'ordinateur sous tension.

REMARQUE Assurez-vous que l'adaptateur Ethernet de l'ordinateur est configuré pour obtenir automatiquement une adresse IP. Pour plus d'informations, reportez-vous à la rubrique d'aide de système d'exploitation.

Étape 3 Démarrez le navigateur Web de votre ordinateur.

Étape 4 Dans la barre d'adresse, entrez l'adresse IP de l'ATA.

- **SPA112** Utilisez le système RVI de l'ATA ou l'utilitaire de configuration du routeur pour obtenir l'adresse IP qui a été attribuée de façon dynamique à l'ATA. Pour plus d'information sur le système RVI, consultez la rubrique **Utilisation du système RVI pour l'administration, page 6.**
- **SPA122** Dans la barre d'adresse, entrez **192.168.15.1** Remarque 192.168.15.1 représente l'adresse IP locale par défaut de l'ATA.

Étape 5 À la première ouverture de session, entrez le nom d'utilisateur par **défaut, admin**, et le mot de passe par défaut **admin**. Le mot de passe est sensible à la casse.

Étape 6 Entrez le type de paramètres requis par votre fournisseur de services Internet. Les différents types incluent DHCP (option par défaut), IP statique et PPPoE (requis pour la plupart des services DSL). Après avoir entré ces paramètres, cliquez sur **Submit** (Soumettre) pour établir votre connexion Internet.

Fax something interesting toll free to 888 877 1655 or 1-503-200-1300

To the right are faxes that folks have faxed us recently. Click any the large version and rate it for interestingness.

You can fax something interesting to 1-888-877-1655 (your fax will never notice) or 1-503-200-1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll free number if you're in the USA.) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number usually appear, but make no promises that this will actually work.

We hate spam and junk faxes, and will absolutely not send you any unsolicited e-mail or faxes. We won't sell your information to marketers or anyone else.

comparison is implied rather than directly stated

METER - any regular pattern of rhythm based on stressed and unstressed syllables

METONYMY - use of a closely related idea for the idea itself

MOOD - see atmosphere

✓ ONOMATOPOEIA - the use of words which sound like what they mean

✓ OXYMORON - two words placed close together which are contradictory yet have truth in them

✓ PARADOX - a statement in which there is an apparent contradiction which is actually true

✓ PERSONIFICATION - giving human attributes to an animal, object or idea

✓ RHYME - words that sound alike

RHYME SCHEME - any pattern of rhymes in poetry. Each new sound is assigned the next letter in the alphabet.

✓ RHYTHM - a series of stressed or accented syllables in a group of words arranged so that the reader expects a similar series to follow

✓ SIMILE - a comparison between two things which are essentially dissimilar. The comparison is directly stated through words such as like, as, than or resembles.

SPEAKER - the "voice" which seems to be telling the poem. Not the same as the poet; this is like a narrator

✓ SYMBOL - a symbol has two levels of meaning: a literal level and a figurative level. Characters, objects, events and settings can all be symbolic in that they represent something else beyond themselves

✓ SYNEDOCHE - the use of a part for the whole idea.

THEME - is the central idea of the story, usually implied rather than directly stated. It is the writer's idea about life and can be implied or directly stated through the voice of the speaker. It should not be confused with moral or plot.

TONE - is the poet's attitude toward his/her subject or readers. It is similar to tone of voice but should not be confused with mood or atmosphere. An author's tone might be sarcastic, sincere, humourous

TROPE - a figure of speech in which a word is used outside its literal meaning. Simile and metaphor are the two most common tropes.

UNDERSTATEMENT - this is saying less than what you mean in the service of truth

VOICE - the creating and artistic intelligence that we recognize behind any speaker

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below:

NOTE:

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the **Automatic Reports** option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products - consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-Hpfaxone** (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE:

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

TEST

Hoecakes

1 1/2 cups yellow cornmeal
1 cup all-purpose flour
1/3 cup sugar
1 teaspoon salt
1 teaspoon baking soda
1 1/2 cups buttermilk
2 large eggs
5 tablespoons corn oil plus more if needed

Unsalted butter for serving
Honey for serving

1. Stir together cornmeal, flour, sugar, salt, and baking soda in a medium bowl. Add buttermilk, eggs, and 4 tablespoons oil; whisk until smooth.

2. Heat a large skillet over medium heat until hot. Add remaining tablespoon oil; swirl to coat, and heat until a drop of batter sizzles upon contact. Working in batches, pour 1/3 cup batter per cake into skillet. Cook, turning once, until golden and cooked through, about 4 minutes.

3. Repeat with remaining batter (add more oil if needed, and reduce heat if sides brown too quickly). Serve immediately, topped with butter and honey.

CASE STUDY

Hope for HRT

BY GINO TUTERA MD FACOG

Subcutaneous hormone therapy reduces breast cancer incidence.

Hormone replacement therapy (HRT) for perimenopausal and postmenopausal women always has been fraught with controversy. But when the results of the most recent WHI study came out, that controversy escalated to panic. Millions of women stopped HRT and suffered the ravages of menopause.

But we've found women a dramatic

All prior studies have not tested their patients for specific hormone deficiencies and have used unadjusted estrogen as their estrogen of choice. The studies were based on the theory that conjugated estrogen combined with medroxyprogesterone, increased breast cancer incidence. Therefore all estrogen would produce the same result. This is comparable to saying if one automobile maker makes a dangerous engine then all engines are dangerous.

Using conjugated estrogen combined with medroxyprogesterone does increase the incidence of breast cancer. But this doesn't mean all forms of estrogen with progesterone or estrogen alone increase breast cancer incidence.

To prove this I conducted a 10-year retrospective study from 1992 to 2002 involving 976 women between 35 and 82. These women used subcutaneous bioidentical 17 beta estradiol combined with bio-identical testosterone and progesterone. They were followed with yearly exams and mammograms and treated with varying doses of estradiol and testosterone. Women who had a uterus were treated with progesterone for endometrial protection.

The Trial go ways Increasing. Using bio-identical 17 beta estradiol and testosterone—even with micronized progesterone—does not increase the risk of breast cancer. In fact, it may reduce the incidence of breast cancer in women.

HRT Materials & Methods

Nearly 98 percent (956) of the patients in my study were peri- or postmenopausal; nearly 70 percent (680) had been on other forms of estrogen replacement therapy (ERT) before switching to subcutaneous estradiol and testosterone pellet therapy. The average time of prior ERT use was five years.

The subcutaneous pellet was inserted under local anesthesia in the office. We saw the patients one month after insertion and conducted repeat lab work to ensure that women achieved a complete return to a peri-menopausal FSH.

Results of the Study

During the course of the 10-year study, only one patient developed breast cancer. However she had used conjugated estrogen and medroxyprogesterone for four years before starting pellet therapy. Seventy percent of all age groups had used ERT for the years in addition to the years of pellet use. This significantly shifts the years of use to a minimum of five to a maximum of 30. The patients using pellet hormone therapy for 5–9 years had switched from conjugated estrogen because studies demonstrated increased breast cancer incidence in estrogen users, along with other adverse effects.

The results indicate that transdermal, subcutaneous estradiol and testosterone pellets significantly reduce the incidence of breast cancer. In fact, this therapy can protect against breast cancer. This study further demonstrates the great benefit of subcutaneous hormone pellet therapy. It is the only system that delivers bioidentical estradiol and testosterone directly to the bloodstream maintaining continuous blood levels of both hormones. ☆

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)

Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity

Radish & Cucumber Crostini

INGREDIENTS
Fresh squeezed juice of half a lemon
1 teaspoon extra virgin olive oil
Sea salt and freshly ground pepper to taste
Drizzle of honey
4 radishes, stemmed & sliced paper thin
1 small seedless cucumber thinly sliced
Butter
Eight 1/2-inch thick slices of baguette, toasted

1. In a small bowl whisk together the lemon juice, olive oil, salt, pepper and honey until well combined. Add the radish and cucumber slices and toss to coat. Let sit for a few minutes so the flavors can marinate.
2. Meanwhile, spread a thin layer of butter on one side of each toasted baguette slice. Arrange slices on a serving plate. Using tongs, top each buttered side with an even amount of the radish-cucumber mixture. Pour the juices over the crostini and let stand 1 minute before serving.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord: so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire. It has seldom

been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere

WORKSTATION SETUP GUIDE

This workstation setup guide has been developed to introduce you to your new chair and guide you through how to setup your chair and workstation for comfort and optimal ergonomics.

Introducing your new chair...

Your new chair is the Humanscale Liberty Mesh chair and has been carefully selected to provide a comfortable and ergonomically sound seated posture

Adjusting your chair correctly...

Your chair is very easy to adjust with just two manual adjustments required to set yourself up correctly

1. **Seat depth** – adjusted with a lever underneath the front of the seat – adjust shorter or deeper to suit allowing approximately 3 finger widths from the edge of the seat to the back of your knee
2. **Seat height** – raise or lower your seat so that you have at least a 90 degree angle at your elbow (with your arms resting on the desk) Tip Your elbows should fall comfortably below your shoulders and be slightly higher than your wrists

Automatic Adjustments

Your chair has a self adjusting recline which counterbalances automatically providing the right amount of support through the full range of recline motion, regardless of user size and weight

This chair allows the user to maintain a more dynamic seated posture which reduces the negative effective of static muscle loading on the body usually experienced with more rigid chair designs

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. There's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-329-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy. It's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes — your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Flight of Pegasus Wand

This wand is has been crafted using arcane techniques that have resulted in the integration of the short minuscule clipping from a feather garnered from the wing of Pegasus himself. This feather was acquired through magical means, namely an ancient spell developed by the Archmage, Docanthus, for the express purpose of cloaking Pegasus in a web of paralyzing Somnambulus fiber which renders the great beast unconscious for the span of several heartbeats. After an arduous climb to ascend the jagged slopes of Mount Olympus, Docanthus cast his spell and then stole five feathers from the ivory wing and, with a haste born of trepidation that the great Pegasus would cast off the spell too quickly, transported himself back down the mount. By integrating a feather fragment into the heart of the wand, the master of said wand will have the potential of not only mastering the art of teleportation but, if the wizard is of the highest caliber, may be able to tame the great Pegasus himself—a feat none has yet accomplished, though many have perished in the attempt.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

This Brother Inkjet machine has been finely tuned to provide excellent accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven or result from using non Brother inks in this machine may not be covered by the original machine limited warranty

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

FRONT

Thanks you for coming to our booth during the recent [illegible] office landscaping in your new divisional headquarters. We are pleased to submit our proposal herewith for the concept phase as agreed earlier.

Since your available area is somewhat limited, we suggest a modular layout. This concept emphasizes space conservation and yet still provides for a modern, pleasing atmosphere.

Enclosed are two floor plans. The first one will allow you to keep your present furniture. The second would be designed with the intention that our new space-saving modules be used

I propose to change the system so that when density card output is requested, plotted densities are punched out. In the normal case these would simply be the average densities; if the test code calls for E.N.D. conversion, it would be the E.N.D. densities that are punched out. If the test breaks down, e.g. because of range check failure, we would get cards punched out for individual strips, since individuals are plotted in that case.

I would appreciate your comments on this proposal by January 2, 1971.

- Each beneficiary must complete and sign a separate Beneficiary Claim Form. Originals only. Faxes will not be accepted. **IF THE BENEFICIARY HAS HAD A NAME CHANGE** – We will require proof of the name change, such as a marriage certificate, divorce decree, or other court issued document showing the change of name.
- Please be advised, certain State Tax/Revenue Departments require that we notify and obtain their consent ("Notice and Consent") prior to disbursing beneficiary proceeds from an annuity contract. Please contact the Department of Revenue for the decedent's state of residence to determine if Notice and Consent forms are applicable.
- Additional requirements will be necessary for special c beneficiary types:
  1. Estates: Court-certified Letters of Testamentary will be required. Also, the executor must obtain a Tax ID Number/EIN for the estate.
  2. Trust: A completed and signed Trustee Certification for Death Claim Benefits form will be required. Note, if the Tax ID Number for a grantor trust is the same as the deceased grantor's Social Security Number, a new Tax ID Number/EIN must be obtained for the trust (with the exception of co-grantors)
  3. Minor or Conservatorships: Letters of Guardianship or Conservatorship, certified by the Clerk of Court will be required.
  4. Corporation: A copy of the Corporate Resolution (with Corporate Seal affixed) reflecting authorized signer(s) is required, as well as the Corporate Secretary's statement of authenticity.
  5. Power Of Attorney: A copy of the Power of Attorney (POA) document and a completed Certification of Attorney in Fact form are required.

Note. We reserve the right to request additional information we may deem necessary to settle the claim.

Instructions for Form SS-4

(Rev. February 2016)

Department of the Treasury
Internal Revenue Service

Application for Employer Identification Number (EIN) Use with Form SS-4 (Rev. January 2010)

Section references are to the Internal Revenue Code unless otherwise noted.

General Instructions

Use these instructions to complete Form SS-4, *Application for Employer Identification Number (EIN)*. Also see *Do I Need an EIN?* on page 2 of Form SS-4.

Future Developments

For the latest information related to Form SS-4 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/ss4*.

Purpose of Form

Use Form SS-4 to apply for an EIN. An EIN is a nine-digit number (for example, 12-3456789) assigned to sole proprietors, corporations, partnerships, estates, trusts, and other entities for tax filing and reporting purposes. The information you provide on this form will establish your business tax account.

TIP *See Form SS-4PR (for Puerto Rico) for the Spanish-language version of Form SS-4.*

An EIN is for use in connection with your business activities only. Do not use your EIN in place of your social security number (SSN) or individual taxpayer identification number (ITIN).

Reminders

Apply for an EIN online. For applicants in the U.S. or U.S. possessions, you can apply for and receive an EIN free of charge on IRS.gov. See *How To Apply for an EIN*, later.

File only one Form SS-4. Generally, a sole proprietor should file only one Form SS-4 and needs only one EIN, regardless of the number of businesses operated or a sole proprietorship or trade names under which a business operates. However, if a sole proprietorship incorporates or enters into a partnership, a new EIN is required. Also, each corporation in an affiliated group must have its own EIN.

TIP *For information about EINs and federal tax deposits see Pub. 15, Pub. 51 and Pub. 80.*

To ensure fair and equitable treatment for all taxpayers, EIN issuances are limited to one per responsible party, per day. For trusts, the limitation is applied to the grantor, owner, or trustor. For estates, the limitation is applied to the decedent (deceased estate) or the debtor (bankruptcy estate). This limitation is applicable to all requests for EINs whether online, telephone, fax, or mail.

How To Apply for an EIN

You can apply for an EIN online (only for applicants in the U.S. or U.S. possessions), by telephone (only for applicants outside of the U.S. or U.S. possessions), by fax, or by mail, depending on how soon you need to use the EIN. Use only one method for each entity so you don't number more than one EIN for an entity.

Apply for an EIN online. If you have a legal residence, principal place of business, or principal office or agency in the U.S. or U.S. possessions, you can receive an EIN online and use it immediately to file a return or make a payment, that is the IRS website at *www.irs.gov/businesses* and click on *Employer ID Numbers*.

The principal officer, general partner, grantor, owner, trustor, etc. must have a valid Taxpayer Identification Number (SSN, EIN, or ITIN) in order to use the online application. Taxpayers who apply online have an option to view, print, and save their EIN assignment notice at the end of the session. (Authorized third party designees will receive the EIN, however, the EIN assignment notice will be mailed to the applicant.)

If you have NO legal residence, principal place of business, or principal office or agency in the U.S. or U.S. possessions, you can't use the online application to obtain an EIN. Please use one of the other methods to apply.

Apply by telephone—option available to international applicants only. If you have NO legal residence, principal place of business, or principal office or agency in the U.S. or U.S. possessions, you may call 267-641-3609 (not a toll-free number), 6:00 a.m. to 11:00 p.m. (Eastern time), Monday through Friday (or Monday to Saturday in Alaska and Hawaii).

The person making the call must be authorized to receive the EIN and answer questions concerning Form SS-4. Complete the Third Party Designee section only if you want to authorize the named individual to receive the entity's EIN and answer questions about the completion of Form SS-4. The designee's authority terminates at the time the EIN is assigned and released to the designee. You must complete the signature area for the authorization to be valid.

Note. It will be helpful to complete Form SS-4 before contacting the IRS. An IRS representative will use the information from Form SS-4 to establish your account and assign you an EIN. Write the number you're given on the upper right corner of the form and sign and date it. Keep this copy for your records.

If requested by an IRS representative, mail or fax the signed Form SS-4 (including any third party designee authorization) within 24 hours to the IRS address provided by the IRS representative.

IRS no longer issues EINs by telephone for domestic taxpayers. Only international applicants can number an EIN by telephone.

Apply by fax. Under the Fax-TIN program, you can receive your EIN by fax generally within 4 business days. Complete and fax Form SS-4 to the IRS using the appropriate fax number listed in *Where To File or Fax*, later. A long-distance charge to callers outside of the local calling area will apply. Fax-TIN numbers can only be used to apply for an EIN. The business may change without notice. Fax-TIN is available 24 hours a day, 7 days a week.

Be sure to provide your fax number on the IRS can fax the EIN back to you.

Apply by mail. Complete Form SS-4 at least 4 to 5 weeks before you will need an EIN. Sign and date the application and mail it to the appropriate address listed in *Where To File or Fax*, later. You will receive your EIN in the mail in approximately 4 weeks. Also see *Third Party Designee*, later.

Call 1-800-829-4933 to verify a number or to ask about the status of an application by mail.

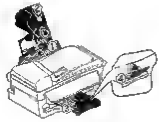
1 Flip the feeder guard forward.

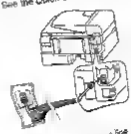
2 Raise the paper support, pull out the output tray, then raise the paper stopper.



3 Slide the edge guide to the left.

6 Connect the fax line

To fax, connect the included phone cord to a telephone wall jack and to the **LINE** port on the back of your product. To connect a telephone or answering machine, use the **EXT** port on your product. See the Quick Guide for more details.



Note: If you're connecting to a DSL phone line, you must use a DSL filter or you won't be able to fax. Contact your DSL provider for the necessary filter.

What Do Sea Monsters Eat?

Complete each statement below with one of the answers at the bottom of the page. Write the letter of each statement above its correct answer.

S	A number that can be written as a fraction $\frac{a}{b}$ where a and b are integers and $b \neq 0$, is a rational number
I	A fraction can be changed to a decimal by dividing the numerator by denominator
A	When a fraction is changed to a decimal and the remainder is zero, the decimal is called a terminating decimal
D	When a fraction is changed to a decimal and the remainder is NOT zero, a digit or block of digits will eventually start to repeat. Such a decimal is called a repeating decimal
S	Thus, since rational number is a number that can be written as a fraction, every rational number can be expressed as either a terminating or repeating decimal.
H	The reverse is also true. Every terminating or repeating decimal represents a rational number and can be changed to a fraction
F	A number that CANNOT be expressed as a fraction $\frac{a}{b}$ where a and b are integers, is an irrational numbers
H	Terminating and repeating decimals represent rational numbers. Therefore, the decimals for irrational numbers neither terminate nor repeat
I	Instead, the decimal for an irrational number is an endless string of digits that never repeats and never terminates
N	An example of an irrational number is 0.1121231231...
P	The union of the set of rational numbers and the set of irrational numbers is called the set of real numbers

When My Image Garden is installed, Image Display also opens.

Image Display displays a slide show of artwork images that were created automatically by the recommended artwork functions of My Image Garden, as well as other images saved on your computer.

3 The shear stress at section 3 (assuming uniform stress distribution) is:

$$\tau = \frac{P}{2\pi(D - d)/4} \quad \tau \approx \frac{2P}{\pi(D - d)}$$

The shear stress at section 3 (assuming a tri-form distribution) is: $\tau = 1.7\tau A$

4 The torsional stress in section 4 (neglecting stress concentration)

$$\tau = \frac{Tc}{J} = \frac{(PR)(D/2)}{\frac{\pi}{32}(D^4 - d^4)} = \frac{16PRD}{\pi(D^4 - d^4)}$$

5 The shear stress at cylindrical section 5

$$\tau = \frac{T}{\pi Dt(D/2)} = \frac{2PR}{\pi D^2 t}$$

6 Bending stresses are also present, the magnitudes of which depend on rigidities of the shaft and associated components, and on the fits between these components

How to Restore the Grandstream HT-286 to Factory Defaults

From PhonePower Knowledge Base

First, find the **MAC Address** of the device. It is a 12 digit HEX number located on the bottom of the unit

Next you will need to encode the MAC address into something you can dial, as you can not enter letters with the phone. To encode the MAC address please use the following mapping:

- 5-9-0-9
- A: 22
- B: 222
- C: 2222
- D: 33
- E: 333
- F: 3333

For example, if the 96 AC address is 00:08:82:00:E3:95, after using the table above to encode it, the encoded MAC address should read 0082282003339995.

Once you have encoded the MAC address you will begin the factory reset. To perform a factory reset:

- Pick up the handset and dial *** or press the LED button for voice prompt
- then 99 and get the voice prompt Reset.
- Enter the encoded MAC address.
- Wait the 15 seconds. The device will reboot automatically and restore to factory default setting.

Note: Factory Reset will be disabled if the Lock keypad update is set to Yes

Please check the WebSite on a regular basis for class news and additional info might be posted there as well.

Homework (HW): HW will be assigned every week, starting on Friday September 3d. They are not to be handed in but discussed if needed the following Wednesday

Examinations: There will be a weekly quiz (QZ) for about 10 minutes at the end of each Friday class, one midterm exam (MT) and a final exam (FL). A quiz can can be from anything up to that point in lecture. The midterm will exam the material up to that point in lecture, it will be 80 minutes long and take place in the class room. The final will be a two hour cumulative exam.

Midterm (MT): Wednesday October 13., 10:30 am – 11:20 am, R B104.

Final (FL): Wednesday, December 15. 10:30 am – 12:30 pm, R B104

Grading: The biggest number of the following:

1. QZ 20% + MT 30% + FL 50%
2. QZ 20% + FL 80%

Policy:

- Absence from an exam, without proper explanation, is an automatic zero on that exam.
- There will be no make-up midterm exam.
- In order to pass the class one MUST TAKE THE FINAL!

Collaboration: Needless to say collaboration of any kind during a midterm exam or the final exam, is cheating. You are to abide by the GMU's Honor Code, see **http //academicintegrity gmu edu/honorcode/** and more generally see
http //academicintegrity gmu edu/

During an exam you are not allowed to help anyone nor receive any help from anyone except possibly from the exam proctor. You also cannot use any helping device, be it note books, text books, cheat-sheets or programmable calculators, unless otherwise clearly stated on the exam.

HOWEVER, healthy discussion about the homework problems among your classmates is allowed and encouraged! Be sure though, to write your own solutions.

Available Help: For help with some of the HW you can see me during office hours, or drop in the Mathematics Tutoring Center located in the Johnson Center room 344. For more info on tutoring, go to the WebSite **http //math gmu edu/helpwithmath htm.**

Courtesy: Be courteous to your fellow classmate. During lectures be quiet and please turn off your cellular phones!

HP Compaq t5720/5725 thin clients are terminals that connect to a Microsoft server with Citrix MetaFrame software running atop the server operating system.

HP has partnered with Altiris to manage HP Compaq thin clients. Altiris Deployment Solution is a leading-edge tool to help with quick deployment and for ong going management of the thin clients in your organization. Each HP Compaq thin client is recognized by the Altiris Deployment Solution as a supported device. As a result, you need not track license compliancy for each device. For additional information about the Altiris Deployment Solution tool, refer to the *Altiris Deployment Solution* user's that shipped with the thin client and the *Deployment Solution User Guide* that is available at: www.altiris.com/documentation

The next sections describe the features of the t5720/5725. For a complete list of the hardware and software installed on a specific model, visit http://h18004.www1.hp.com/products/thinclients/index.html

The t5720/5725 includes the following features:

- no moving parts.
- no hard drives or diskette drives (optional Multiflash hard drive and diskette drive available)
- 15-minute setup time.
- while software support is limited to 90 days from date of purchase, free periodic firmware upgrades during the product's warranty period help to protect your IT investment
- central deployment and management using the Altiris Deployment Solution.

PROVISIONS OF LAW

Section 320.0848, Florida Statutes, provides for the issuance of the disabled person parking permit. This section was amended to no longer allow the applicant to qualify because they are unable to walk 200 feet. This disability must be due to a condition listed in (a-f) on the reverse side of this form in the "Physician/Certifying Practitioner's Statement of Certification" section.

Section 316.1958, Florida Statutes, provides that motor vehicles displaying a license plate or parking permit issued to a disabled person by any other state or if valid subject to laws of the United States, shall be recognized as a valid plate or permit, allowing such vehicle the special parking privileges in Florida, provided such other state or district grants reciprocal recognition for disabled residents of this state. All of the United States has agreed to reciprocate

RENEWAL INSTRUCTIONS:

Submit a copy of the registration for your expiring parking permit, along with the appropriate fees, by mail or in person to the tax collector's office or license plate agency in the county where you live.

Contact your local county tax collector's office or license plate agency for fee information.

APPLICATION REQUIREMENTS:

1. The form HSMV 83039 must be accurately completed, including the "Physician/Certifying Practitioner's Statement of Certification" section verifying the disability. See list below for acceptable "certifying authorities."
2. A Florida driver license number or Florida identification number is required, unless the authorized physician certifies that the applicant's disability is too severe to visit or be transported to an office to obtain a driver's license or identification card.
3. Fees. There is no charge for a Permanent Parking Placard. A Temporary Parking Placard is $15.

   Note: If a second Temporary Parking Placard is required within one year of the initial Temporary Parking Placard, there will be no charge. If a second Temporary Parking Placard is required outside the one year issuance, a fee of $15 would be required.

CERTIFYING AUTHORITIES:

The "**Physician/Certifying Practitioner's Statement of Certification**" section on the reverse side of this form **MUST** be completed by **one** of the following and must include the certifying authority's license number and the name of the state where their license was issued.

- Physician licensed to practice under Chapters 458, 459 or 460, Florida Statutes, or similarly licensed by another state
  NOTE: Documentation of the physician's licensure in the other state must be submitted
- Osteopath c Physician.
- Podiatric Physician
- Chiropractor
- Optometrist (for sight only)
- Physician who practices medicine in a military medical facility, state hospital, or federal prison. Indicate the facility and the address.
- Advanced registered nurse practitioner licensed under Chapter 464 under the protocol of a licensed physician
- Physician assistant licensed to practice under Chapter 458 or Chapter 459.

MISCELLANEOUS INFORMATION:

1. An additional permit may be issued to a disabled person who qualifies as a frequent traveler or as a quadriplegic.
2. An organization may be issued as many disabled person parking permits as it has vehicles (that are used to transport disabled persons).
3. Temporary parking permits are issued for the time period specified by the certifying authority, not to exceed six (6) months.
4. Permits issued to disabled persons will expire in four years on the owner's birthday. Permits issued to an organization will expire in four years on June 30.
5. The permit must be hung on the rear view mirror of any vehicle used to transport the disabled person(s) while parked in a designated disabled person parking space. The permit number must be visible from the front of the vehicle.
6. It is unlawful for any person to obstruct the path of travel to an accessible parking space, curb cut, or access a site by standing or parking a vehicle within any such designated area.

THE WIRECUTTER
BUYER'S GUIDE

December 17, 2008

RECIPE

Buttery French TV Snacks (Croq-Télé)

Adapted from "Field Guide to Cookies" by Anita Chu (Quirk Books, 2008)

Time: 45 minutes

3/4 cup blanched almonds or hazelnuts, lightly toasted and cooled to room temperature

1/2 cup sugar

1/2 teaspoon kosher or flaky sea salt (if using fine or table salt, use 3/8 teaspoon)

1 cup all-purpose flour

7 tablespoons cold unsalted butter, cut into 1/2-inch pieces

1. Position 2 oven racks in top third and bottom third of oven. Preheat oven to 325 degrees. Line two cookie sheets with parchment paper.

2. In a food processor, grind nuts, sugar and salt to a fine meal. In a mixer, beat flour and butter together on low speed until texture is sandy. Add nut mixture and mix on low until dough starts to form small lumps; keep mixing until dough just holds together when pinched between fingers. Do not use wet fingers; the cookies will collapse.

3. Pinch off about a teaspoon of dough and place in palm of your hand. With tips of fingers, pinch and press dough together until cookie has a flat bottom and pointed top, like a rough pyramid. Cookies need not be perfectly smooth or equal size. Place on parchment about 1 inch apart.

4. Bake about 15 minutes, rotating cookie sheets halfway through. Cookies should be turning golden brown on edges. Cool on sheets 5 minutes, then transfer to wire racks and cool completely. [illegible] storing in [illegible] containers up to 1 week.

SAN Zoning

In a simple SAN configuration where only 1 or 2 hosts are connected zoning is not terribly important however in more complex SANs where many hosts of different types and OSes along with tape libraries are connected zoning becomes crucial. Essentially the goal of zoning is to isolate the connected hosts from each other for security purposes. For example say you have both unix and windows hosts connected to the SAN along with a fibre channel tape library. You may want your Unix Netbackup or Legato server to control the tape devices but you discover that when the windows box rebooted following a blue screen that it saw the tape drives and automatically loaded drivers for them and configured windows to use them. Next the clueless windows admin notices this and starts doing windows backups on top of your catelog tapes. If you're the SAN administrator you'll probably start reading up on zoning between job interviews.

SAN Types

There are 3 types of zones

- Port Zones - These are zones where physical ports on the switch are placed into a zone
- WWN Zones - These are zones where World Wide Numbers are zoned together. A typical example would be the worldwide numbers of an array controller port being zoned with the world wide number of an HBA in a host.
- Mixed Zones - These zones contain at least 1 port number and 1 WWN

Important

For best security the zones should be hardware enforced and not software enforced. This is often referred to as "Hard Zoning" and "Soft Zoning". The distinction is that with software enforced zoning security is based on the assumption that hosts and devices logging into the switch fabric will only rely on the fabric name server for finding devices on the SAN. This is possibly a weak assumption. With hardware enforced zoning a host that is not zoned to see another device on the SAN will be prevented at a hardware level from seeing the device.

Plasti-Fab PlastiSpan Flotation Billets

Floating Dock or Marina

Plasti-Fab PlastiSpan flotation billets can be used as a flotation medium for a variety of designs for docks and marinas.

The following docks and marinas described are typical for this type of construction. For information on the design and application of floats or structures see the Plasti-Fab brochure "Flotation Systems - Selection, Application and Specification." Floating docks or marina constructions designed as recommended as calm, protected area, where severe wave action can break up docks or moorings. For more flexible structures, build docks and marinas on bottoms and pile with sweeping end rods, even more attention must be given to anchors or piles. Where severe storm conditions are likely to be encountered, consult a Plasti-Fab representative for specific recommendations.

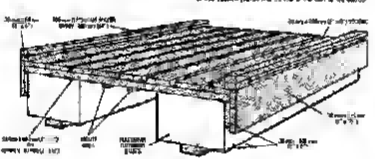
Description

Docks can be of any length, width or design. However, the principles illustrated in this brochure can also be used to construct wider docks.

Dock length may be up to any of various lengths of inches and can be increased or decreased in width by the addition or subtraction of billets in the frame or the pontoons.

This dock is designed to be built in the shore or ashore, with the exception of the 38 mm x 38 mm (2" x 2") outer frame and the diagonal.

When construction is completed, or when the sections are moved from section to the water and the 38 mm x 38 mm (2" x 2") outer frame and the diagonal, then will be assembled to the inner parts. The frame is the first to be taken.



Construction

Billets

Use billets of uniform density.

After it, holes, and if a space should be left, dry cylindrical after forming or loading from non-corroding material.

Decide on a convenient length of section on which to base the dock and choose the number of attaching billets (see page 7 of the Plasti-Fab brochure "Buoyancy Systems - Selection, Application and Specification").

Frame

Lay out 38 mm x 140 mm (2" x 6") members on edge at a distance apart equal to the flat sheet width of the deck (see 75 mm (3")).

Cut cross members to size and nail to 38 mm x 140 mm (2" x 6") members on 600 mm (24") centres to make up the section of the dock. Place diagonal bracing to complete the section frame.

Fillers

Place fillers or frame to conform the profile (shown on page 2 of the Plasti-Fab brochure "Buoyancy Systems - Selection, Application and Specification").

Decking

Nail decking over top of frame on cross at one time, with edge of deck butt well over edge of the 38 mm x 140 mm (2" x 6") frame.

OR

Bolting deck to sill until deck is in position. Nail decking on after the deck is assembled, with staggered joints to make a stronger deck.

OR

Nail decking on at right angles over the joints left out to facilitate installation of utility lines.
